You Have a Dr. Appt!

MOREOFFICEVISITS.COM

APPOINTMENT REMINDER SOFTWARE

You Have an Appt!

Time is money! (email subject line)

Professionals average twenty clients per day. Each appointment generates an average of one hundred and fifteen dollars; this equals about \$2300.00 per day or \$46,000 per month. One missed daily appointment can cost \$2,300 per month. *Appointment Reminder Software costs way less than one missed appointment per day to operate.*

How many appointments fail to show up for your appointments each day?

Our system is automated, integrated and scalable!

- Calls appear to come from your office
- Reminders can confirm an appointment
- Reports document the calls, texts and emails
- Personalized messages for one or many offices
- Fully automatic or semi-automatic operations
- Live calls can be transferred directly to your scheduling manager if needed

Visit **www. MoreOfficeVisits.com** – to learn more or schedule a live demo today at **262.789.9649**

OVERVIEW

- How it works
- **Demonstration**
- Capacity and Requirements
- Contact information
- Graphical Illustration

What is Appointment *Reminder Software*?

Software that enables you to create an audio / text & e-mail message and have it delivered real-time or at a certain time to patients with upcoming appointments.

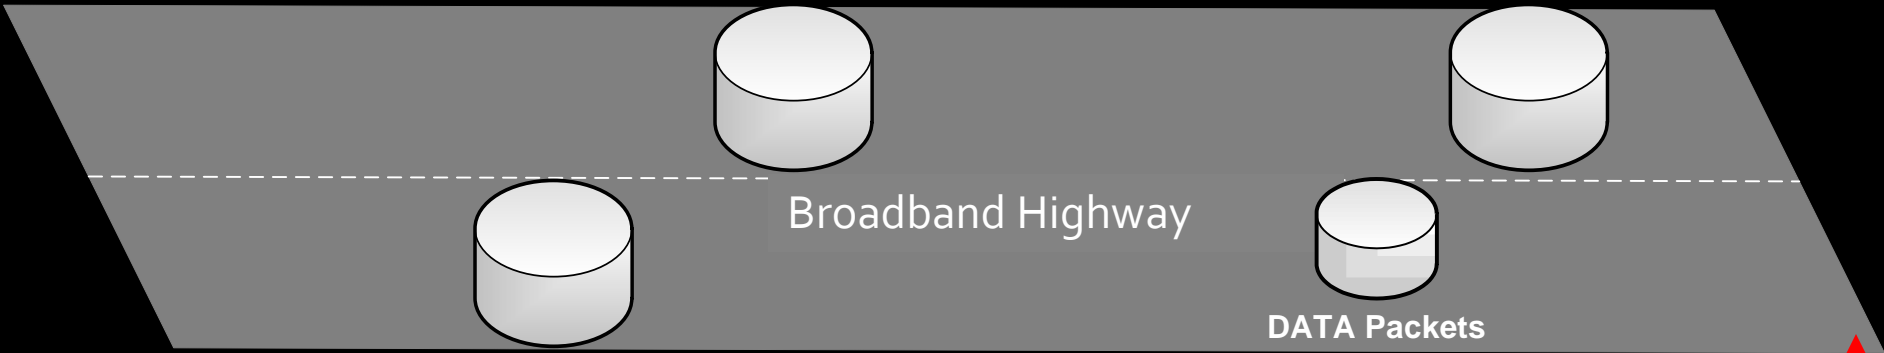

**Appointment Reminder Software sends
messages to patients.**

These reminders are sent by voice
(telephone call) text (SMS), or email
message.

Appointment Reminder Software

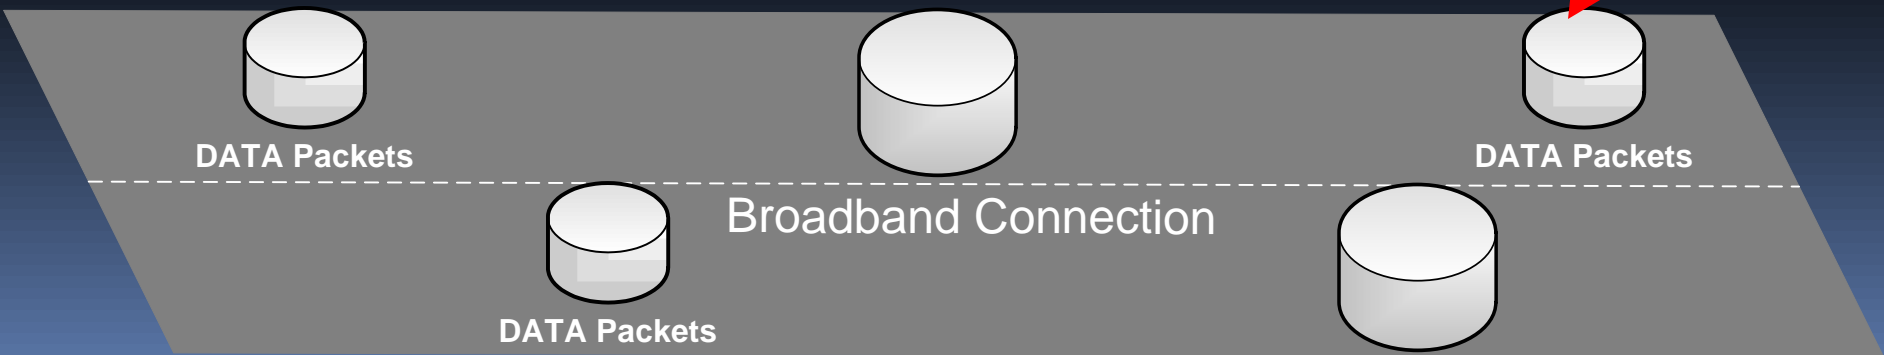

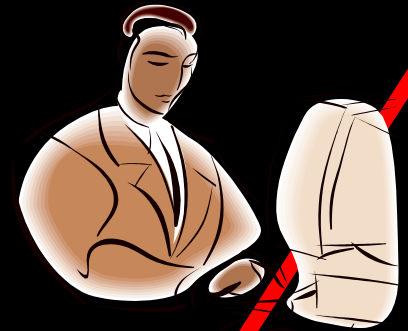

<http://www.moreofficevisits.com/>

Digital World audio, text or - email messages

Appointment Reminder Software

More data packets (telephone calls, text messages and email messages) require more bandwidth. More bandwidth with voice call priority is needed for more voice messages deliveries in a shorter time frame.

Who sends a message with *Appointment Reminder Software?*

- **Appointments** can remind patients of an upcoming appointment.
 - **Dental centers** can send a reminder about bi-annual check-ups
 - **Physical Therapist** can reminder clients of an upcoming session.
 - **Chiropractic** care centers can call about monthly adjustments
- 

What about other professions?...

The *Ultimate!* Edge

- ▣ Onsite software (with offsite backup)
- ▣ Offsite software available
- ▣ HIPAA (software is at your office – information is protected)
- ▣ No additional hardware
- ▣ Any phone system (no phone system)
- ▣ Personalized messages (date & time, personnel, location specific)
- ▣ Secure data
- ▣ Database integration @Flexible configuration
- ▣ Confirmations, Direct transfers. Complete reports
- ▣ Great value, Direct Service and Support

We picked 4 examples (20, 50, 100 & 200 appointments per day)

1. We gave several “revenue per appointment” amounts – be conservative in your choice
2. We figured the ROI by dividing the lost revenue per month by 5 year cost of the application (estimate).

Additional items that should be considered:

additional patients that can be seen if an appointment cancels which frees up that time slot.

- additional work that can be done by staff not making calls
- higher staff morale and lower staff turnover because one of the most disliked jobs is replaced and improved

ROI (Return on Investment)

- ROI overview
- ROI -20 appointments per day
- ROI -50 appointments per day
- ROI -100 appointments per day
- ROI -200 appointments per day

200 appointments per day

Return On Investment for DRS	\$75 per Appt.		\$125 per Appt.		\$175 per Appt.		\$225 per Appt.
Appointments per day	200		200		200		200
Income per day	15000		25000		35000		45000
Income per month	300000		500000		700000		900000
Cost of 3% missed appointments per day	300		500		700		1350
Lost \$ per month at 3 % of missed appts.	6000		10000		14000		27000
ROI of \$30,000 in months	5		3		2.14285714		1.11111111
	Months		Months		Months		Months

System Capacities

- With CSV. integration you define the number of groups and bulletins.
- Threading (one call, one text, one email per second)
- One hundred calls, texts and email would take about five minutes.
- Reports arrive in about ten minutes
- Repeat calls for busy and ring no answer
- Confirmation and transfers available

Computer Requirements

- Windows 7.0, 8.0, 10.0 or 12.0 + server (current operating system)
- Broadband internet access for installation and support
