

Time is money! (email subject line)

Ben Franklin, "Remember time is money." Professionals average twenty clients per day. Each appointment generates an average of one hundred and fifteen dollars; this equals about \$2300.00 per day or \$46,000 per month. One missed daily appointment can cost \$2,300 per month. **Appointment Reminder Software** costs less than one missed appointment per day to operate.

How many appointments fail to show up for you each day?

- Our system is **automated, integrated** and **scalable**
- Calls appear to come from your office
- Reminders can confirm an appointment
- Reports document the calls, texts and emails
- Personalized messages for one or many offices
- Fully automatic or semi-automatic operations
- Live calls can be transferred directly to your scheduling manager if needed
